1 Risk

Security vs. Services redux

The more services we provide or use, the more vulnerabilities we open ourselves up to

Risk Assessment Process

- 1 Identify risks
- 2 Assess risks
- 3 Mitigate risks
- 4 Monitor task
- 5 Feedback

Two main factors go into assessing the severity of a risk – **likelihood**
and **impact**
(we might say that risk is a *function* of likelihood and impact)

- Likelihood
 - ▶ Vulnerability
 - ▶ Threat
- Impact
